

2018 UPDATE FOR USA BREVET/NATIONAL JUDGES COURSE PARTICIPANTS

The goal of the Women's Technical Committee is to present a fair testing process for the success of all judges. Here are some helpful points:

***Appendix 15- Applying Compositional Deductions**

Written Test- Concentrate on the upper and lower parameters with the information for no deduction and 0.20 maximum deductions.

Practical Test- Apply all Appendix 15 deductions and this can be brought into the exam along with other materials. All appendix materials are available on the USA Gymnastics web site.

- Symbols-All symbols on the written exam will have a written description.**

- No vault values need to be memorized with their numbers and values.
- No electronic devices are allowed for the written exam or for the practical closed and open exams. Ex. Ipad, tablet, computers, electronic watches
- Beam- 2.201- Split leap forward has a value part change to a B. No stag or bending of the leg is allowed as it is a straight leg brush.

Thank you and good luck for a successful testing process.
